

Concrete silo 20,000 metric ton - walls casting

## Feed mills and storage Projects: design & management:

- ▶ Concrete grain silos. ▶ Bulk flat storage warehouses.
- ▶ Big- bag storage facilities. ▶ Feed mills improvement and upgrading.

## International Activities:

- ▶ Uzbekistan and Kazakhstan :Feed mills production capacity surveys: Employed by ASA (American Soybean Association)
- ▶ Republic of Congo – Africa: Feasibility study: New feed mill. Evaluation study of an Existing abandoned grain storage facility - 8000 Ton
- ▶ Belarus: Feed mills production capacity surveys for a private sector
- ▶ Hungary: Feed mill Feasibility study to upgrade and modernize - private Sector
- ▶ Cameroon storage facility 10,000 Ton design and project management.
- ▶ Angola: fish feed plant – consulting.
- ▶ Azerbaijan: Feed center and grain drying and storage facility 5000 ton - consulting
- ▶ Insurance companies : consulting , damage evaluation of silos collapsing

Complicated conveying solutions

Feed mills upgrading

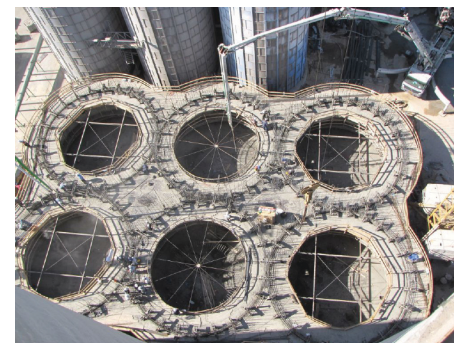

Grain cleaning and truck loading – Africa

Design and implementation of warehouses

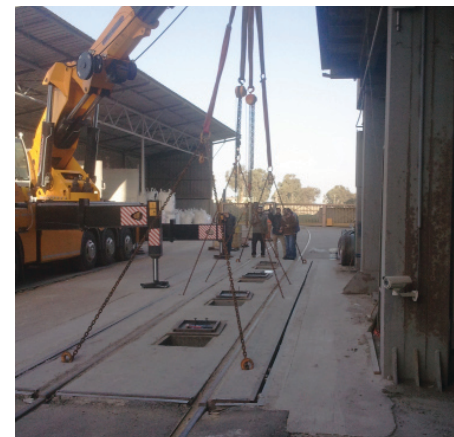

Grain conveying project- 300 TPH

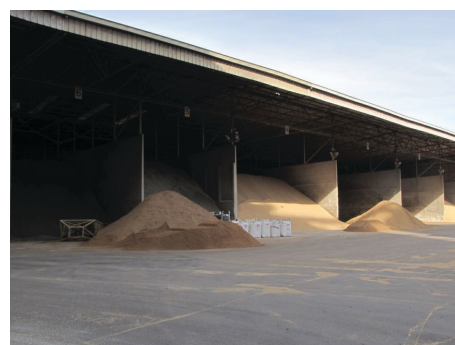

Concrete silo 20,000 metric ton- walls casting

Micro ingredients dosing plant

Train cars weighing bridge installation

Bulk flat storage

Big bag storage facility

30,000 ton silo with a warehouse project

Design and implementation of grain conveying systems

Grain storage farm - Africa
